

## We are seeking a **Plant Technician (I&C)** for our **Rio Bravo Fresno plant located in Fresno, CA.**

Report To: Maintenance Manager

### **Position Summary:**

The Plant I&C Technician is responsible for proper operation, trouble shooting, maintenance, calibration, and tuning of the plant's instrumentation and electrical equipment as well as other assigned duties. The successful candidate will be an experienced journeyman level Instrument Technician with plant electrical (up to 480 V) knowledge and experience. A thorough understanding of power plant instrumentation, transmitters (smart & otherwise), DCS, PLC's, is required.

### **Other Duties & Responsibilities:**

- Participates in operator training and continuing training
- Manages preventative maintenance tasks and records preventative maintenance activities
- Trains and develops other employees in performing I&E maintenance tasks and preventative maintenance. Practices situational leadership, safety and environmental stewardship
- Leads equipment or system problem solving and recommends solutions
- Ensures that appropriate safety procedures are followed
- Requisitions appropriate parts and supplies. Participates in formulating the annual plant budget
- Performs other duties as directed
- Clean and maintain assigned shop and office areas.
- This position requires the use of a wide variety of electric and instrumentation test tools as well as an assortment of hand tools.

### **Education, Experience and General Requirements:**

Successful completion of Constellation's EEI Tech test. Strong aptitude in mathematics, instrumentation/electrical ability and production controls. Hands on experience (journeyman level) with all aspects of Instrumentation/electrical systems and a working knowledge of power cycles is a plus. Experience with trouble shooting continuous emissions monitors (CEMs) would be a plus. Ability to work overtime as needed with minimum supervision. Excellent communication and team skills and a working knowledge of Excel and PC based applications. High school graduate minimum. The successful candidate must pass the pre-employment physical, drug screen, and background screen.

**Other** including physical requirements, working conditions, etc: Climb stairs and ladders.

### **Salary Information:**

The salary will be commensurate with skills, abilities and experience. This position has an incentive minimum up to 6% of base salary. If you are interested please forward your resume'.
